The National Center recognizes many State Associations, chapters and members use the Business Professionals of America logo. It is our intention to ensure that the use is consistent and cohesive. Brand guidelines are about providing our organization with the tools to keep the Business Professionals of America brand steady and are not just about setting rules. The brand guidelines include more than just a color palette and versions of our logo. It contains specific guidance, standards and uses for the brand and logo elements.

With brand guidelines in place, BPA can ensure our brand's elements are used effectively and professionally at all times. We can build a strong and recognizable brand when everyone uses the components consistently and correctly. The intent of the Brand Guide puts policies in place, not to limit creativity, but to keep our brand identity consistent and recognizable.

The Brand Guide will be reviewed annually to ensure continuous evolution and compliance of the brand identity of the organization. It is strongly recommended that an updated Brand Guide is downloaded from the [bpa.org](https://bpa.org) website annually to ensure the most up-to-date guide is being referenced.

# BPA History

Officially formed in 1966 as the Office Education Association (OEA), Business Professionals of America (BPA) has a strong history as a student organization that contributes to the preparation of global professionals through the advancement of leadership, citizenship, academic and technological skills for students at the Middle, Secondary and Post-secondary levels.

For more than 50 years, BPA has worked to serve as an innovator in Career and Technical Education, providing its members with opportunities for growth through education, competition, community service and personal development.

## The Early Years

With technical and trade education for youth identified as a national necessity, the rise of the vocational education movement can be traced as far back as the Progressive Era where workers were concerned about making education more useful to their jobs, and business and industry desired better trained workers. Over the years, individual (short-term) bills were passed that provided support and funds for different trades, but it wasn't until 1963 and the passing of the Vocational Education Act that grants to states to maintain, improve and develop vocational-technical education programs helped pave the way for organizations such as Business Professionals of America, then the Office Education Association, to be formed.

The funds from the Vocational Education Act were earmarked for occupations in demand. Funds were also provided for constructing area schools for vocational education as well as provisions for vocational office education, occupational training and work-study programs, thus recognizing the need for a student organization for students enrolled in career/technical office/business programs.

### **1964 – 1979**

In 1964, the American Vocational Association conducted a study of 43 states indicating that 67% of the state vocational education supervisors wanted a career and technical youth group for students in business programs. The following year, a second study confirmed the original findings and state supervisors met to develop guidelines.

In July of 1966, Vocational Office Education Clubs of America (VOECA) was formed by the states of Iowa, Kansas, and Wisconsin and that August, VOECA convened a meeting of youth group representatives to decide the most effective means to implement the office occupations youth group. After an intensive effort, articles of incorporation were filed for the Office Education Association (OEA) with the first three states to affiliate being Iowa, Kansas, and Wisconsin.

By 1971 a national office had been established for the Office Education Association (OEA) in Columbus, OH and the Board of Trustees approved the Alumni Division. The first full-time Executive Director of OEA was employed in 1973.

Also in 1973, The Governor's Conference on Technical Vocational Education concluded that education should be redirected with equal emphasis on education for living and education for making a living. As such, the council recommended that the educational experiences of every individual should develop occupational awareness and the dignity of work; provide career information, orientation and exploration; and prepare for a job and further education.

### **The 1980s**

Education reforms focusing on secondary education began in the early 1980s, prompted by concern about the nation's declining competitiveness in the international market, the relatively poor performance of American students on tests of educational achievement, and complaints from the business community about the low level of skills and abilities found in high school graduates entering the workforce. Reform came in two waves: academic reform and restructuring.

As OEA continued to grow, so did the need for a national headquarters, a market study and a strategic and long range plan. In 1982, the National Center located at 5454 Cleveland Avenue, Columbus, OH was purchased, and the following year, a dedication ceremony was held.

In 1984, the Carl D. Perkins Vocational and Technical Education (Perkins Act) was first authorized with the purpose to increase the quality of technical education in the United States. Also in 1984, the OEA Board of Trustees commissioned the Market One firm of Columbus, OH to conduct a market study of OEA, which in 1988 resulted in the OEA becoming Business Professionals of America (BPA).

### After Three Decades of Growth

By 1992, the National Center in Columbus, OH was paid off and celebrated during a commemorative ceremony at the National Leadership Conference held in Cincinnati, Ohio.

In the late 1990s, Business Professionals of America recognized an opportunity to address the growing need for educational advancement and career awareness in advance of high school. Answering the call to address this need, the states of Delaware, Florida, New Mexico, Oklahoma and Texas piloted a new BPA Middle Level Program. After preliminary success of the pilot program, a motion was made and approved by the organization's Board of Trustees in 2002 to continue the program. In 2003, the Middle Level program was approved by the BPA Corporate Body, making it an official division of the organization. The following year, Middle Level Division members participated in the National Leadership Conference for the first time.

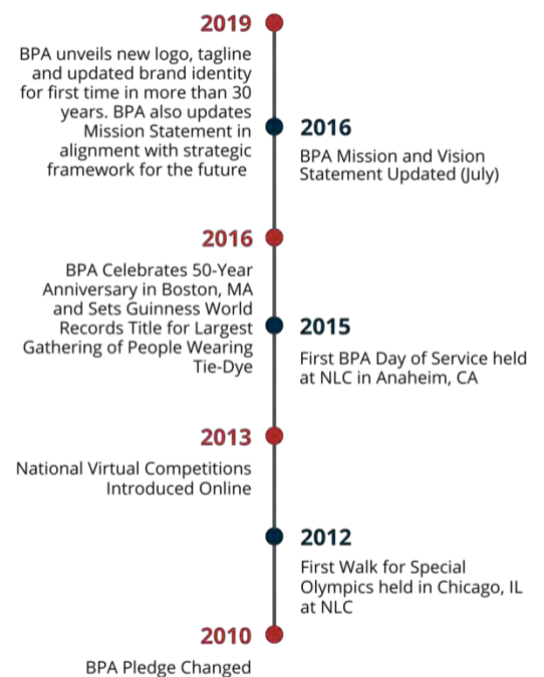

### The Golden Years and Beyond

For the last five decades, Business Professionals of America has left its mark on those who have been affiliated with the organization, whether through membership or partnership. What started as a recommendation has evolved into a community of student, academic and business leaders committed to the preparation of a world-class workforce through the advancement of leadership, citizenship, academic and technological skills.

Over the years, the organization has found itself continually adapting to the ever-changing world it faces. Whether it be rescheduling its National Leadership Conference in Dallas, TX for the first time ever in 2009 due to the H1N1 Influenza, keeping current with technological advancements by introducing virtual contests in 2013, or adapting to a completely electronic National Officer Election for the first time in the organization's history in 2020 due to the cancellation of the National Leadership Conference as a result of a global pandemic, BPA regularly examines how to best serve its members.

Many in the organization will pause to focus on the footsteps taken by BPA and its members over the years. Yet, the primary mission and vision of Business Professionals of America has always been one of future interests.

Adapting to change, the organization updated the BPA Pledge in 2010, the organization's Vision Statement in 2016 and the organization's Mission Statement and Strategic & Long Range Plan in 2019. Additionally, 2019 also brought about a new logo, tagline and updated brand identity that enhances the historic BPA platform. Our organization is laser-focused on the professional development and future of our youth, providing the tools, skills and experiences needed to compete, succeed and thrive in the business world. In October of 2019, following the sale of the National Center Headquarters building, the organization moved to its new facility at 700 Morse Road, Columbus, OH. The Board of Trustees and BPA Corporate Body continue to look toward the future and what the next 50 years will hold for the organization and its members.

# BPA Programs

## BPA Week

Business Professionals of America Week takes place the **second full week in February** and coincides with Career and Technical Education Month. BPA Week is a great opportunity to promote your chapter, have your students learn public relation skills, and take pride in their local chapter. Many chapters hold dinners, invite legislators to their school, conduct local media interviews, and highlight chapter activities and/or members.

## Torch Awards Program

The Business Professionals of America Torch Awards Program is designed to promote professionalism and leadership in both career development and personal growth.

There are a total of seven (7) Torch categories that students can complete activities in, which are:

1. Leadership
2. Service
3. Cooperation
4. Knowledge
5. Friendship
6. Love, Hope and Faith
7. Patriotism

Each activity is worth 5, 10, 15, or 20 points. When a student achieves a certain number of points for each category, their advisor or local reviewer can submit the Torch résumé online to be reviewed for recognition. There are four (4) levels of recognition, each of which are independent of one another, making it possible for a higher level recognition to be earned.

1. **Executive Torch Award:** Given at the local chapter level, the Executive Torch Award requires 10 points in each Torch category. An Executive is defined as "a person having administrative or managerial authority in an organization."
2. **Diplomat Torch Award:** Depending on your state, this award might be awarded at the local, regional or state level. The Diplomat Torch Award requires 30 points in each Torch category. A Diplomat is defined as "one skilled with tact in dealing with people."
3. **Statesman Torch Award:** Given at the state level, the Statesman Torch Award requires 50 points in each Torch category. A Statesman is defined as "one who is a leader in the promotion of the public good and in national affairs."
4. **Ambassador Torch Award:** Given at the national level, the Ambassador Torch Award requires 70 points in each Torch Category. An Ambassador is defined as "a diplomatic official of the highest rank appointed and accredited as a representative of the organization."

Each BPA division (Middle Level, Secondary, and Post-secondary) has its own set of events, and members only compete against other members in their respective division. A complete list of events with descriptions is available at <https://bpa.org/students/compete/competitive-event-listing/>.

The WSAP Guidelines are a comprehensive set of instructions, descriptions, and details to help prepare students for WSAP competitions. The Guidelines are an essential tool for participating in a WSAP event. The WSAP downloaded center can be accessed by BPA Advisors and student members using your login credentials at: <https://members.bpa.org/download-center/>.

Competition formats are offered to individuals and teams and include objective tests, on-site scenarios, computerized applications and judged presentations. Each event helps prepare students to be part of a workforce of global professionals. Students may only participate in a specific number of competitive events on Regional, State, and National levels, excluding Open Events, which are open in an unlimited number of participants and to any National Leadership Conference qualifier.

Competition in the Workplace Skills Assessment Program may be offered at the Regional, State, and National level, which is entirely dependent on what your specific-state offers. Qualifiers may advance from a Regional Leadership Conference to a State Leadership Conference, and finally to the National Leadership Conference. Please see your State Advisor

regarding advancement policies in your state. Independent Chapters will advance directly to the National Leadership Conference based on approval from the National Center.

At the National Leadership Conference, recognition for competitive event results in all Divisions will be as follows:

- General Events: top ten (10) winners
- Judged Events: all finalists shall be recognized
- Open Events: top ten (10) winners plus any ties

To learn more about our WSAP program, visit: <https://bpa.org/students/compete/>.

### Virtual Competitive Events

All entries will be judged prior to the National Leadership Conference and the top ten (10) finalists from each of the qualifying virtual competitions will be invited to the National Leadership Conference to participate in our National Showcase. With the exception of those finalists participating in our National Showcase, all components of the National Virtual Competitions are completed totally online.

# Organizational Structure

Business Professionals of America, Inc. is an incorporated not-for-profit association formed for the purpose of creating, directing, and supervising the activities of the unincorporated national student and alumni organization called Business Professionals of America.

## **Chartered State Associations**

Business Professionals of America, Inc. is a national organization of chartered State Associations, each having their own chapters and individual members. Collectively, the State Associations form the Corporate Board and elect the Board of Trustees. The Board of Trustees establishes desired national policy affecting all of the State Associations. The Secondary and Post-secondary divisions elect student national officers who preside over the annual National Leadership Conference (NLC).

All local chapters within a state comprise the State Association. Each State Association establishes policy and procedures within that state. Each State Association holds leadership conferences, where members elect state officers, attend seminars and display career-technical competencies through competition.

Student members make up the local chapters. The local chapters elect officers and serve their school and business community through chapter activities. Local advisors (teacher-coordinators) serve as sponsors for local chapters and provide programs designed to see that student members acquire career-technical, social, leadership and human relations skills.

Each BPA Chartered State Association has its own governing body and a State Advisor who directs State programs and conferences. National Business Professionals of America is built from the partnership of these State organizations working together to form a corporate body and an alliance of State Association Advisors in the State Association Advisory Council (SAAC).

## **Independent Chapter Charters**

A foreign chapter or an individual school chapter from a non-affiliated state or territory may request issuance of a charter by submitting a letter to the National Center. # Advocate for BPA

*Become a positive change agent and bridge the connection between Business Professionals of America and government officials. Advocacy is important to Business Professionals of America for many reasons. Building strong relationships with elected officials and other key decision-makers is important to the work of our organization and helps assure our members' success.*

From receiving federal funding to being a fundamental part of Career and Technical Education, it is vital that we promote our organization, the opportunities we offer and continuously prove that CTE and BPA are necessary in shaping the next generation of business professionals and leaders.

Additionally, advocacy grants the opportunity for our members to share their story about how BPA has made an impact in their lives and allows legislators to create a focus, especially when approximately 6,500 bills are considered each day.

Although advocacy in action involves reaching out to government officials, legislators and decision-makers in an effort to educate and inform them about issues you are passionate about, it is also incredibly diverse and can include being active and vocal on social media. Visit: <https://bpa.org/get-involved/advocate/> to learn more about how you can advocate for BPA.

**1966:** In July, the Vocational Office Education Clubs of America (VOECA) takes form, founded by youth group representatives to decide the most effective means to implement the office occupations youth group.
